DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3, 5-8, and 64-70 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's limitation in claims 1 and 8 wherein the audio layer exposes an application programming interface (API) to the session/transport layer to establish a link with the session transport layer is not taught or suggested by the prior art of record. Applicant's limitation in claim 70 wherein the session/transport layer and the audio layer each exposes a respective application programming interface (API) to the other layer, and wherein the two layers establish a link between them by providing each other with pointers to their respective APIs is not taught or suggested by the prior art of record. Applicant's arguments are persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
